29 September 1982

Executive Director

NOTE FOR THE DDCI/DCI

- This began during my tenure as IG, so the objectivity of my concurrence in the recommendations may be suspect.
- The report is direct but fair, I think. Chuck's comments don't reflect great heartburn.
- I suggest that the DCI approve by initials each of the 8 recommendations, even though #2, particularly, addresses a level of management in which he would not normally engage.
DCI approval would generate action.
